

STATE & FEDERAL GOVERNMENT CONTACTS

Hawai'i Legislative Process Resources

[Hawai'i State Legislature](#)

The Hawaii State Legislature's website is the key portal for those wishing to get informed and involved in the legislative process. The site is geared toward providing quick and easy access to the information you need in order to participate in the lawmaking process. A wealth of information is available on the opening page. The search box can help you quickly determine who your Representative and Senator are; access bills and resolutions, determine their current status, and submit testimony on them; find out when chamber sessions and committee meetings are scheduled; and research the Hawaii Revised Statutes (the State's laws). Information on all upcoming hearings is also posted prominently on the opening page. Additional information on statutes, rules, the state constitution, and the legislative process can be found [here](#).

[Legislative Calendar](#)

The legislative calendar lists key dates in the legislative timetable.

[Reports](#)

Lists of bills and resolutions that have passed specific deadlines are available here, as well as daily downloads of bills and committee reports, budget worksheets, governor's messages, reports to the legislature from various departments, and a wealth of other resources.

[Legislators](#) and [Committees](#)

Provides information on who the current members of the legislature are, their contact information, and on which committees they are serving. Current members who serve in leadership positions for the House and Senate are available.

[Submit Testimony](#)

One of the best ways to get involved is to submit testimony for bills that are going to be heard by the committees. To do so, you must register an account with the legislature. Once registered, you can track your own personalized list of measures, and get e-mail notifications for hearings on specific measures or for specific committees.
